

Hawaiian Gazette.

VOL. XXXIX, NO. 48.

HONOLULU, H. T., TUESDAY, JUNE 14, 1904—SEMI-WEEKLY.

WHOLE No. 2598.

RUSSIANS ARE CALLING OUT MEN FROM RESERVE

(ASSOCIATED PRESS CABLEGRAMS.)

ST. PETERSBURG, June 14.—A division of reserves has been called out. Half the force is going to the front and half to central Russian garrisons.

RUSSIAN LOSSES.

ST. PETERSBURG, June 14.—An official statement of losses in the navy enumerates 44 officers and 920 men killed, 13 officers and 220 men wounded; army, 36 officers and 980 men killed and 103 officers and 2080 men wounded; 20 officers and 696 men captured.

RUSSIAN BARBARITY.

TIENTSIN, June 14.—An official protest has been made to St. Petersburg against the incessant robberies and outrages committed by Russians against Chinese in Manchuria.

LONDON, June 11.—Two clockwork infernal machines have been found in the dining room of the Czar's palace.

THE COSSACKS RETREATED.

ST. PETERSBURG, June 11.—A Japanese infantry brigade and five squadrons of cavalry marched against the south side of Sinyen on Wednesday. This force was checked by the batteries. Later a battle occurred on the east side of the city, the Cossacks retreating. The Japanese loss was forty. The Japanese loss at Saimatza was 100.

KUROPATKIN'S TARDY REINFORCEMENTS.

ST. PETERSBURG, June 11.—The last division of reinforcements for Kuropatkin is expected to reach Liaoyang on August 27.

INCREASED JAPANESE ACTIVITY.

LIAOYANG, June 11.—There is increased Japanese activity in the neighborhood of Sinyen, west of Fengwangcheng. It is believed this is a feint to distract attention from Port Arthur.

RUSSIANS IN KOREA.

SEOUL, June 11.—The Russians have occupied a garrison near Chang-ju, the Korean defenders fleeing.

NEWS FROM PORT ARTHUR.

CHEFOO, June 11.—The Russian Consul here is in nightly communication by wireless telegraph with Port Arthur. Application has been made to the Russian government for the removal of neutral foreigners. At Port Arthur the price of rice has increased six-fold.

LIAOYANG, June 12.—The Japanese are constructing a railway from Fengwangcheng to Shakedsi, near the mouth of the Yalu river.

JAPAN'S BANDIT ALLIES.

TIENTSIN, June 12.—The Chunchus, (bandits) are organizing to wreck the Russian railway lines. They number 2000 and are led by Japanese.

JAPAN'S STRATEGIC ADVANTAGES.

TOKIO, June 12.—Siayen, which the Japanese have occupied is a strategical point of great importance, which controls the road to Liaoyang and Mukden.

RUSSIAN TACTICS.

ST. PETERSBURG, June 12.—Kuropatkin is reversing Kuroki's flanking movement north of Siamatza by sending troops from Mukden to turn Kuroki's right.

ST. PETERSBURG, June 13.—It is rumored that a naval battle has taken place at Port Arthur, in which two Russian and four Japanese battleships were sunk.

VLADIVOSTOK FLEET BEATEN BACK.

ST. PETERSBURG, June 13.—It is stated here that the Vladivostok fleet reached to within thirty miles of Port Arthur on June 7, when it encountered several Japanese torpedo boats and two battleships. The Japanese vessels attacked the fleet, inflicting damage thereto and compelling its return to Vladivostok.

DISTRESS AT VLADIVOSTOK.

ST. PETERSBURG, June 13.—Great distress prevails at Vladivostok owing to enhanced prices of food.

NO RELIEF FOR PORT ARTHUR.

ST. PETERSBURG, June 13.—General Kuropatkin is making no attempt to relieve Port Arthur.

RUSSIAN LAND VICTORY.

HAICHONG, June 13.—The Japanese flanking movements around the Russian left from Fengwangcheng were repulsed, the Japanese losing two battalions.

BATTLESHIP CZAREVITCH REPAIRED.

TIENTSIN, June 13.—The battleship Czarevitch is again ready for sea. The gunboats Giliak and Bobr are not destroyed.

A Tokio despatch of June 9 stated that the Giliak had been torpedoed and destroyed at Port Arthur.

AN AFFAIR WITH BANDITS.

HAICHONG, June 13.—Ten Cossacks came into conflict with fifty bandits, killing fifteen of them. One Cossack was killed.

THE RUSSIAN DEAD AT NANSHAN.

Washington, June 12, 1904. (Received at 1:55 p. m.)
To Japanese Consul, Honolulu.

General Ota reports that the Russian corpses which were left at Nanshan and its vicinity, and were found and carefully buried by the Japanese military administration committee and gendarmes, number 10 officers and 664 men; besides about 20 Russian corpses were already found and buried by our troops, at the neighborhood of our camp.

A RUSSIAN SOLDIER CAPTURED BY A JAPANESE OUTPOST.

MAY COME HERE TO FIGHT LEAF HOPPER

SAN FRANCISCO, June 14.—L. A. Thurston of Honolulu is here seeking to engage Alexander Craw as chief entomological exterminator of the leaf-hopper in Hawaii. Mr. Thurston has offered him a salary of \$5,000 per year.

Alexander Craw has long been connected with the work, in California, of preventing the importation and spread of insect pests. He is an expert in entomological work.

SAN FRANCISCO, June 14.—John D. Spreckels is ill at the Hotel del Coronado and it is announced that he will be unable to make the trip to the Republican National Convention.

THE JUDICIAL APPOINTMENTS

At the request of President Roosevelt, Governor Carter yesterday conferred at Washington with the Attorney General's Department in reference to the Hawaiian judicial appointments.

Besides the commissions for the three Justices of the Supreme Court, the commissions of Judge Little of Hilo, Judge Edings of Kailua and Judge Hardy of Kauai have expired.

Judge Hardy will probably be reappointed. Some few years ago he spoke of retiring on the score of health, but it is understood that latterly he has expressed his willingness to serve another term.

If the appointments are delayed much longer, there may be complications ensue in the Parker Ranch litigation. Should Judge Gear grant Sam Parker an injunction against A. W. Carter as manager, while there is no successor to Judge Edings to dissolve the injunction now in force against Sam Parker, there will be nobody in lawful control of the ranch.

JESSE ACKERMAN AS A PEACE ANGEL

BERNE, May 28.—Miss Jessie Ackerman, an American, who has been charged by the Universal Peace Union of Philadelphia to visit European capitals in the interests of peace, arrived here and was received in audience by the president of the Swiss Confederacy, M. Comtesse. Miss Ackerman presented him with an address from the Universal Peace Union and a Swiss flag beautifully worked in silk by American women.

The story says that the chamber of commerce is despatching with William H. H. Wood, its representative in Washington, and that it will also send Miss Ackerman to Washington to see Mr. Carter, and it has been suggested by cable.

DEMOCRATS ORGANIZE

Central Committee Gets Down to Hard Work.

The Democratic Central Committee held an animated meeting last evening in the Waverley Hall, a practically full attendance of the twenty-six composing the committee being present. Among those prominent in the discussion were Harry Juen, E. M. Watson, R. B. Kidd, Col. McCarthy, J. Emmeluth, Mr. Prendergast, Mr. Spitzer, Frank Harvey, E. H. F. Wolter, Mr. Effinger, Frederick Terrill, the vice-chairman of the committee, acted in the absence of Prince David Kawanamanoa.

The question of ways and means was generally discussed at the commencement of the session with the reports of the treasurer and finance committee which were finally referred back for presentation in proper form and will be brought up again at the next meeting, which takes place on Monday evening next at the same place.

Unanimous opinions were expressed as to the advisability of carrying out the work of organization without waiting to hear from the St. Louis convention and the committee individually will go ahead with the promulgation of precinct clubs.

Glowing reports were read from various districts, including Maui, the Kona, Hilo and Hamakua portions of the big island and from Molokai telling of the willingness of the Home Rulers to join the Democratic ranks. Word was heard from Mr. Bishop of Kauai, who repudiated the idea that there were no Democrats in that island and stated that there were many only awaiting organization.

Speeches generally talked of the moment being ripe for taking advantage of a big slump in the Home Rule party and the whole trend of the meeting went towards the importance of organization, finally adjourning until Monday evening when a full attendance was urged by the chairman.

There was no suspicion of anything but harmony during the meeting though some of the members before the session acknowledged that they were not unprepared for such a contingency. The Hearst question was not touched upon.

TO CLASSIFY THE AQUARIUM FISHES

Mr. Seale, the expert ichthyologist at the Bishop Museum, will classify and give the scientific names to the fishes at the Aquarium.

Mr. Seale was formerly assistant on the U. S. Fish Commission and has published several works on Pacific fishes, among them being "Fishes of Guam," in which twenty species, new to science, are described, and "New Hawaiian Fishes" in which seven new species of Hawaiian fishes are described. Mr. Seale is now writing an extensive work on the "Fishes of the South Pacific," and will go to the coast by the Sierra with a collection of fishes from the Bishop Museum to compare with specimens secured in Samoa by Dr. Jordan.

Dr. J. E. Duerden of the University of Michigan, Ann Arbor, will spend the summer investigating the corals of the Hawaiian Islands.

Dr. Duerden is one of the best known authorities on corals and actinaria. He is Bruce Fellow, Johns Hopkins University, and has the degrees Ph. D., A. B., C. Sc. (Lond.). Dr. Duerden will sail from San Francisco for Honolulu on June 18.

COMMITTEEMAN'S PROXY TO CARTER

Samuel Parker stated yesterday evening that he had signed his proxy as Republican National Committeeman to Maurice Thomas B. Carter, and it had been forwarded by cable.

Some Knife Wielders--A Bequest Renounced. Court Items.

What Boyd and Mahaulu Are Charged With Embezzling.

Regulars Unite With Militia in Useful War Drill---Decision of Honors is Dependent on Hypothetical Points.

Hawaii's Governor Was in the Sound Country.

Somebody.**

Tennis at Milo.
The Milo Tennis Club is holding its tournament in which the quality of the court is said to be excellent but the attendance not large.

MAUI CASE OF ROBBERY

More Particulars of the Recent Shock.

MAUI, June 10.—The June term of the 2nd Circuit Court began on Wednesday morning, the 8th. Hon. A. N. Kepokai presiding and Deputy-Attorney-General E. C. Peters acting as prosecuting officer. J. M. Vivas was the only other Honolulu attorney present. The grand jury with C. B. Wells as foreman finished its labors within two days and reported Thursday afternoon. At 4 p. m. the Judge read out eight true bills and left some others on file. The full report of the grand jury will be read this morning.

The trial jury have been engaged upon a case laid over from last term entitled Territory of Hawaii vs. W. L. Mossman, Wm. Bailey and Wm. Miner, robbery, and are still at work upon it today. Defendants were on the police force when the alleged offense was committed.

The calendar consists of 18 criminal cases and it is probable that the petty jury will finish its work in about a week.

THE EARTHQUAKE.

The earthquake of last Saturday was the severest one experienced on Maui in several years. There were two or three shocks, the last being much the heaviest. In Pala and other parts of Makawao district china rattled, pictures swung to and fro, and walls of houses creaked and cracked ominously. At Kahului store much crockeryware was broken, and bottles of salad oil smashed, the liquid running over shelves and floor. The vibration was the chief subject of conversation during the afternoon of the 4th.

RADIUM EXPERIMENTS.

Dr. Robert Dinegar, for Puunene plantation hospital, is the first physician to import radium into the Territory. He has experimented successfully with an X-ray machine presented to the hospital through the generosity of Mr. Sam'l T. Alexander and now he will attempt to effect cures by the use of the much-heralded radium. The particle to be used by him is stated to be the size of a pea, the cost being \$350. However, such is the durability of the substance, this tiny piece will bear constant use for five or six years. It will continue to exert the power of its qualities while the smallest atom remains.

HOME RULERS WAVERING.

Politicians state that the Home Rulers of Maui are in a most uncertain state of mind. What they will do, whether fuse with the Democrats or continue to be an independent party, will not be decided until August. Prince Kuhio has strongly advised Hawaiians to affiliate with one or the other of the two great political parties. A bad impression, it seems, has been created at Washington because of the existence of the Home Rule party, the popular belief at the capital being that territorial politics is a sort of race war—natives versus foreigners. Until peace reigns no favor of any moment will be shown the Territory of Hawaii.

These reports have had considerable influence with the more intelligent Home Rule leaders. Something should be done immediately, but what?

SPORTS OF ALL KINDS.

The lawn party given Saturday afternoon by the Makawao Tennis Club at its court at Sunnyside, Pala, was a great success. Between 70 and 80 were in attendance, the fair sex predominating.

The record of some of the tennis games was as follows:

Mrs. Murdoch and S. R. Dowdle vs. Miss Engle and F. W. Schultz—6 to 4; Mrs. H. A. Baldwin and Dr. Alken vs. Miss Ethel Smith and D. B. Murdoch—6 to 1; Messrs. Murdoch and Dowdle vs. Messrs. Alken and Schultz—6 to 1; and Mrs. Murdoch and F. W. Schultz vs. Miss Sheffield and S. R. Dowdle—6 to 1. Delicious refreshments were served.

On the adjoining polo grounds late the same afternoon a most exciting game of polo was played, the "Yellows" winning over the "Reds" 2-1-2 to 2. With the "Yellows" played F. F. Baldwin, Geo. Willbur, C. C. Krumpholtz, H. A. Baldwin; with the "Reds," L. von Tempisky, D. C. Lindsay, J. K. Taylor, W. Engle.

During the latter part of the game J. Thompson took H. A. Baldwin's position, and Harry Copp took W. Engle's position.

The league baseball game of the 5th at Well's Park, Kahului, was a most exciting struggle for supremacy—eleven innings being required to decide as to the winner. The score read, Makawao, 8; Kahului, 7. The Makawao club, in playing a close game with the Stars recently and in winning over the Kahului, has shown that it is as good as the best in the league. This is especially true when it is considered how seriously handicapped they are for want of opportunities for practice. The residences of the members are scattered far apart all over Makawao district and so it is impossible to have frequent practice games.

NOTES.

The Makawao Ladies' Aid Society met Tuesday afternoon, the 7th, at the residence of Mrs. D. C. Lindsay. It was decided to hold a social at the home of Mrs. Lindsay on the 14th of July. Reception, refreshment and decoration committees were appointed. It is probable that there will be a large gathering in the morning. Plans for the Makawao and Kahului and other centers in the district of the great American holiday.

THE MAUI RACE MEET

Honolulu Horses May Go After Good Purses.

A meeting will be held today by local horsemen to determine on sending horses up to Maui to participate in the Maui Racing Association's eighteenth annual race meet to be held at Spreckels' Park, Kahului, on July 4. The Davis and Quinn strings are said to be sure entries. Some good purses have been hung up by the association for the thirteen events, among which is a 2:15 class for trotting and pacing which Cyclone and Sambo are both said to be after.

Entries must be made before noon of Tuesday, June 27, with D. L. Meyer, the association secretary, entry fees being ten per cent. of purses. The program in full is as follows:

First—Running Race. Half mile dash, Hawaiian bred, purse \$100.

Second—Trotting and Pacing to Harness. Mile heats, best two in three; 2:30 class, purse \$150.

Third—Japanese Race. Half mile dash, free for all, Japanese riders only, 1st money \$25, 2nd money \$12.50, purse \$37.50.

Fourth—Running Race. Half mile and repeat, free for all, purse \$150.

Fifth—Trotting and Pacing to Harness. Mile heats; best two in three; 2:24 class, purse \$175.

Sixth—Mule Race. One mile dash, free for all, purse \$40.

Seventh—Running Race. Three-fourth mile dash, free for all, purse \$150.

Eighth—Trotting and Pacing to Harness. Mile heats, best two in three; 2:15 class, purse \$200.

Ninth—Polo Pony Race. One mile dash, Polo players to ride, five to enter, five to start, prize, \$75 cup.

Tenth—Pony Running Race. Half mile dash, free for all, 14 hands and under, purse \$60.

Eleventh—Running Race. One mile dash, free for all, purse \$150.

Twelfth—Trotting and Pacing to Harness. Mile heats, best two in three, free for all, purse \$250.

Thirteenth—Japanese Race. One mile dash, free for all, Japanese riders only, 1st money \$25, 2nd money \$12.50, purse \$37.50.

EAST MAUI PROPOSED FOR RUBBER INDUSTRY

Editor Robertson of the Maui News has the following suggestions anent the rubber industry for his home island:

"Rubber is every year becoming a more valuable and needed staple, and those countries which can successfully raise a merchantable article of rubber have bright futures. There is a belt of land nearly thirty miles in length and from one to three miles in width along the east Maui coast, in the wet belt, and there is no doubt but that much of this land is peculiarly adapted to the raising of rubber. A ten acre grove of rubber trees would after the end of the fifth year yield an ample income for any family and will increase in value from year to year for an indefinite period. If a company or companies should organize and each secure by purchase or long lease, from 500 to 1,000 acres of this rubber land, a series of industries would be organized on Maui which would be more certain and profitable than cane. And bananas could be raised between the trees for several years at a profit. The pioneers in this industry will make fortunes and the land is lying idle, awaiting them."

Hilo Boarding School.

At the commencement exercises of the Hilo Boarding School tomorrow evening, the following program will be presented:

Chorus—"When thou art high"..... F. N. Sheppard
Essay—"Capital and Labor"..... S. Kalpa Burke
Essay—"Small Farming in the Hawaiian Islands"..... James Kamakaili
Chorus—"Spin, Spin"..... Hugo Jungst
Essay—"Kaahumanu"..... Chas. Kalaiwaa
Essay—"The Making of a Simple Table"..... James Kamakaili
Declamation and Valedictory..... David Keawehano
Class Song..... Rev. C. E. Shields
Address..... Rev. C. E. Shields
Chorus—"Kaiulani"..... Edwards
Presentation of Certificates.
Chorus—"The Spider and the Fly."
Class of 1904: S. Kalapa Burke, Jeremiah J. H. Maluo, Charles H. Kalaiwaa, James Kamakaili, David B. Keawehano.

The closing exercises took place on Saturday evening and were well attended.

The steamer Nevada arrived in Kahului on Tuesday, the 7th, and will depart on the 11th.

Maunaloa Seminary of Pala will hold its closing exercises on the 15th—other Maui schools on the 17th.

Miss Clara Dowdle, recently of Pala, is recovering from a severe attack of typhoid fever in Pahiola Hospital, Oakland.

Mr. and Mrs. W. von Groeneweyer of Hilo, who are about to leave the islands permanently for Hanover, Germany, formerly resided at Kahului and Hana, Maui. Their Maui friends wish them bon voyage.

Puunene plantation has been manning factories for several months.

Weather forecast today shows for Maui.

ENCAMPMENT ENDS AFTER FINE REVIEW

Regulars and Militia in Three Regiments March Past Acting Governor Atkinson. Breaking Up Camp.

(From Monday's Advertiser)

When nightfall came yesterday the encampment at Waikiki of the First Regiment, National Guard of Hawaii, came to an end, tents had been struck, and the regiment, with the exception of the Hilo and Waikuku companies, had marched back to the town armory with flags flying and the band playing its liveliest marches.

Yesterday was a banner day with the regiment, opening with a brigade review by Acting Governor Atkinson and staff. The review was one of the most attractive formations yet undertaken by the local militia in conjunction with the battalion of United States artillery companies from Camp McKinley.

The troops were in line divided to represent three distinct regiments, the first, composed partly of regular and militia companies, being commanded by Lieut. Trotter, A. C. U. S. A., the second by Lieut.-Col. Zeigler, N. G. H., and the third by Major Wall, N. G. H. The troops were drawn up on the race track and on the approach of the Acting Governor the brigade presented arms, and the Acting Governor passed along the line and then returned to the reviewing stand. The brigade then passed in review before him.

Col. Jones of the First Regiment, N. G. H., was the brigade commander. Captain Nichols, A. C. U. S. A., commander of the artillery district of Hawaii, tendered the review to the Acting Governor. The latter was accompanied by Col. Soper, N. G. H., Major Pratt, N. G. H., Captain Nichols, U. S. A., and Lieut. Sypher, U. S. A., Col. Sam. Parker and "Admiral" George C. Beckley.

During the afternoon the order was given to prepare to break camp. Blankets and bedding were rolled, haversacks filled, clothing disposed of, and the tents struck. Company F, commanded by Capt. Sam Johnson, levelled their tents almost in the twinkling of an eye and the energetic commander had the men policing their portion of the camp before the tents of other companies had come down.

The policing of the camp was a part of the encampment idea, insisted upon by Lieut. Hamilton, A. C. U. S. A., and when everything was packed and off the grounds, the former camping ground was clean and orderly. Only the camp kitchens remained to the last, as supper was served at the encampment.

In the cool of the evening the regiment was under arms, and with the band at the head of the column the troops marched into town.

Col. Jones expressed himself as well pleased with the encampment. "It has been a successful, healthy camp," said he to an Advertiser man. "The sanitation has been excellent. The behavior of the men was the best, and they deserve a great deal of credit."

The camp was fully equipped with its own camp impedimenta, this having been furnished by the United States. The troops lacked for nothing and they were supplied with everything usually found in a camp of regulars.

The hospital corps was unusually well equipped, having its field chests of medicines, surgical instruments, sterilizer, surgical beds and hospital cots, the whole stuff being valued at about \$1500. There were only ten cases of sickness at the camp and these were mainly of trivial matters.

The Waikuku company leaves for Maui today on the Likiepke, and the Hilo company for Hawaii tomorrow on the Kinuau.

LOCOMOTIVES IN COLLISION AT THE PUULOLO CROSSING

A collision between a train on the Oahu Railway system and an engine on the Honolulu plantation took place yesterday afternoon at the Puuloa crossing. No one was hurt.

The afternoon train was en route from Honolulu to Pearl City and as the locomotive neared the crossing and was close upon it, an engine used on the plantation road, which crosses the other track at right angles, came trundling along. Both engines met with a crash and were derailed. The Oahu Railway engine had the worst of the mix-up and was considerably smashed, the plantation engine suffering little damage. As the Oahu trains have the right of way over the crossing the blame is laid with the plantation operatives.

The collision caused considerable delay and in order to accommodate patrons of the road a train was sent from Pearl City to take them on to their destination. An engine was also sent from Honolulu to connect with the cars attached to the derailed locomotive.

SPECIAL STEAMER COMING TO CARRY OFF JAPANESE

In its weekly edition of yesterday the Hawaii Shinpo says in English:

"As far as Japanese are concerned, the difficulty of getting transportation to the coast is being taken advantage of to mulct them out of outrageous charges for getting bookings. At the offices of the steamship companies Japanese are informed that they must give notice six months ahead if they want to book, also that they must put up \$50 to safeguard the company for expenses in case they are held back at the other end.

"This has resulted in the formation of some concerns which advertise that they will secure bookings for Japanese. They appear to have secured control of the bookings, for many Japanese have found that the only way to get tickets is through these agents. A charge of \$10 or \$15 additional is made, in the guise of interest on the \$50, which the so-called agents advance. In the meantime there are hundreds of Japanese who cannot get bookings at all.

"Of course this state of affairs cannot last. It is quite natural that steps should be taken, as they have in fact been taken, if we were correctly informed—to charter a steamer and send her here for the many Japanese who want passage to San Francisco. In all probability we should soon see a steamer here from San Francisco, sent for Japanese and returning crowded with them. Such a wholesale movement is greatly objected to by the Japanese government, but it is a natural consequence of the strange local situation. Surely the Japanese have a right to go to California if they wish to do so and are able to pay their fares, and as long as the ordinary passenger vessels are too crowded to carry them, it is not natural that they should look elsewhere for transportation. The Japanese hotel-keepers' association of San Francisco is interested and may be largely instrumental in sending the special steamer here.

It is rumored that 3000 Japanese are ready to leave this Territory for the coast, as soon as transportation is provided.

YACHTING RESULTS

Sloop "Hawaii" Wins in First Class—"Spray" Goes Ashore.

The yachtsmen had a very fine outing on Saturday and Sunday, what with races, chowders, running ashore and other adventures. Vice Commodore Pickers had hard luck in running on a reef off Ford's Island just as he stood a more than good chance of winning the first class race in the Spray while Sorenson and Lyle landed two victories, winning both the first and third class races.

The squadron held rendezvous at the Peninsula on Saturday morning, the club house being gayly decorated with signal bunting and the club burgees. The wind was not all that could be desired, being northerly and light, so the first class race was postponed until the afternoon. The smaller craft got ready for a start, however, and started off for the channel course about eleven while two of the big fellows, the Gladys and flagship Spray, went along to keep them company.

In the third class were the Irish, Sorenson & Lyle; Mallibini, Lyle; Wikilwik, Thompson; and Myrtle, Crozier. The speedy Irish, of longer lines and superior canvas, gave the rest of her class a handicap but managed to keep ahead of it in the light winds and smooth water, coming in winner after a lengthy race shortly after two o'clock.

In the fourth class the Malolo, Johnson, gave the Skip, L. de L. Ward, and Leimani, Hoggins, a handicap which enabled the Skip to win. Captain Johnson protested somewhat against having to allow the Skip any handicap and his demur seems somewhat justified on the record showing of last season when the Skip beat out the Malolo over the Peninsula course in flat time. Leimani failed to finish.

It was three and after when the first raters got off to a beautiful start: La Paloma, Macfarlane; Gladys, Hobron; Spray, Vice Commodore Pickers, and Hawaii, Sorenson. The original course was changed owing to the state of the wind and set to twice around Ford's Island and return to the Peninsula. There was some mix-up, it seems, over delivering the new directions and the Spray got the changed course at second hand and misunderstood it, rounding Ford's Island from the Ewa side as a consequence instead of keeping it to starboard.

Spray was given twenty minutes time allowance and the Hawaii eight, just enough to allow her to pull off the first prize with fifty seconds to spare, thus justifying the Advertiser's prediction that either the Hawaii or La Paloma win. La Paloma rounded out the prophecy by coming in second, one minute and twenty seconds ahead of the Gladys.

After the even start La Paloma, Gladys and Hawaii started around Ford's Island with Spray going the other way, misunderstanding regatta committee chairman Roth's efforts with the megaphone.

As the yachts passed each other in rounding, Spray was seen to be holding up well under her gaff topsail and Commodore Pickers, Sonny Cunha and Battersby, constituting her crew, were jubilant when they found themselves rounding the mauka end of the island for the second time with apparently plenty of time to spare. Commodore Pickers reckons that at the time he went ashore he had thirty-five minutes to get home in, counting his handicap, and the time the other yachts finished. They should have made the line in that time and if he had not been ruled out for going round the wrong way it looked like the Spray's stein.

But the best laid plans of yachting men oft land ashore and bump g-r-r-r-bump went the Spray high and dry on a falling tide.

Efforts seemed useless and the crew took down the mainsail. Meantime the rest of them had finished and taken down sails before they realized that the Commodore was away behind schedule and must be in pilikia. Captain Hobron put up his mainsail and with Mr. Shaw went off to render assistance, followed eventually by all the club members in various craft. It was no good, the Spray was hard and fast with the tide still dropping and finally the Gladys took Cunha over to McGrew's landing in time to take the seven train to town.

Chowder was ready at the clubhouse and all hands went back to supper leaving Battersby in lonely vigil on the Spray now heeled over on one side. As is ever the case with the local Corinthians, the chowder went off with merry talk, yarns and songs. By midnight all were asleep save Pickers who went off in his tender back to the Spray to take advantage of the high tide at two o'clock. It was so, however, and he and Battersby slept on a cabin floor at an angle of forty-five degrees.

Noon yesterday saw the Spray still stuck and Pickers gloomily contemplating the prospect of unloading ballast, toting it ashore to Ford's Island in his small tender, and reloading after the yacht was off. Dr. McGrew's servant rowed over to the anchored ones with a casual invitation to lunch but the tide was flowing due to be full at two thirty and the Commodore preferred freedom in food just then. He swung out the main boom and bit of jib, toting the yacht off the reef at a little after one, from the house for her customary anchorage.

The Spray was the only boat that

A GUANO BONANZA

New York Co. Claims to Own Island Near Honolulu.

Under the above head lines the New York Tribune of a recent date has a lengthy news article telling of the filing of the articles of incorporation of the American Guano Company with a capital of ten millions and the intention to control the guano output of the world by working the deposits of islands, to which ownership has been acquired, in the Caribbean Sea, the Gulf of Mexico and the Pacific Ocean, "the latter an island within two days' sail of Honolulu."

The local firms who are interested in the manufacture of fertilizer and the guano history, know nothing of the existence of such a corporation and doubt the acquisition of any Pacific islands in the neighborhood of Hawaii. "Two days' sail" is a vague term which may be taken to mean anything from two to five hundred miles, according to the speed of the vessel and the direction in which it would be necessary to sail, whether before the wind or beat into it. "They cannot mean Laysan or Laysan'sky Islands," said Mr. Isenberg of Hackfeld & Co. yesterday afternoon, "and I do not think Bird Island is meant. As far as we know there are no phosphates upon it. We are not interested in the corporation and had not heard of it."

There was an expedition of chemists sent to Bird Island to look into the deposits there and it was understood upon their return that the article lacked commercial value from not containing phosphates.

George H. Robertson and E. F. Bishop of Brewer & Co. knew nothing of any such company being formed and were incredulous of any acquired rights of any islands within sailing distance of Honolulu, the general opinion being that there were no guano islands available within any such distance of Hawaiian territory as should make Honolulu a port of any importance in their connection.

Mr. Robertson noticed a similarity in the names of the president of the New York company, Dr. H. Grant Hague of New York, and the gentleman from Washington who induced the Tacoma to make her trip for the lost island between here and San Francisco. This gentleman's name was J. D. Hague and Mr. Robertson recollects him as having been interested in guano in years gone by. It is possible that there is some relationship between the two as it was rumored that there was a possibility of guano deposits on the island which has failed to materialize. It is possible that this "lost" island is the one referred to in the New York article.

The American Guano Company expects to be delivering 10,000 tons per month of high grade guano and has arranged for a fleet of vessels to go into regular service at an early date delivering the guano gathered from their properties to central ports for distribution to the great agricultural centers of America and Europe and has at the present moment one of its fleet en route to a Caribbean islet with material for wharf erection and apparatus necessary for the loading and shipping of the guano. They claim to have 25,000,000 tons in sight on their properties.

The existence of these deposits has, it is said, been long known to the company but good titles or the lack of them, have hitherto stood in their way. The southern sugar and cotton planters are looked to, to furnish a big market.

Mr. Bishop of Brewer & Company is of the opinion that the islands will be found to be principally in the Gulf of Mexico and the Caribbean Sea. It is not thought that the company's operations will in any way affect either the guano supply or the fertilizer market of Hawaii.

A DANGEROUS DISEASE.—Every one knows that cholera morbus is one of the most painful and dangerous diseases known to humanity. The fact that it is so swift and so often fatal in its results makes it more to be feared than almost any other malady. It often terminates in death before a physician can be summoned or medicine procured. Attacks of cholera morbus come unexpectedly and every family should be prepared. Chamberlain's Colic, Cholera and Diarrhoea Remedy is a reliable and effective medicine, and if given in time will prevent serious consequences. This remedy never fails and is pleasant to take. Every household should have a bottle at hand. Get it today. It may save a life. For sale by all Dealers and Druggists. Benson, Smith & Co., Ltd., Agents for Hawaii.

stirred up the bottom on the trip. Ford's Island is set with shoals and when the race is close, cutting corners often means a close shave. Several shippers announced that they had "bumped just a little bit" during the day, while the Malolo went ashore in earnest for a time.

Four handsome steins are the rewards of victory of which Sorenson and Lyle capture two, Macfarlane one, for second prize, and Ward one. The Hawaii returned to Honolulu yesterday afternoon. Her victory was a very popular one with the club, as her owners have much improved her of late and enter into every race with true sporting spirit.

A committee of the club meets today to take up the question of the club's fund and prepare for the next. The yachtsmen are going to make no effort to make their boat look like a prize-winning article as well as the

JOHNSON PUT BACK A PEG

Boyd and Mahaulu Reserve Their Pleas.

Boyd Johnson must wait for his trial under indictment for gross cheat until after the trial of Jonah Kumalae and himself again under indictment for conspiracy. The jury by disagreement made a mistrial of the latter case the present term, after which Johnson preferred a demand that before another trial thereof he should have his trial on the other charge. Judge De Bolt ruled against him on this point yesterday morning.

LAND OFFICE CASES.

Ed. S. Boyd was arraigned under his five indictments for embezzlement of public money while Commissioner of Public Lands. He was represented by S. F. Chillingworth and J. J. Dunne, and reserved his plea until Friday.

Stephen Mahaulu, former chief clerk of the Land office, arraigned under three indictments for embezzling public money, was allowed to reserve his plea until Thursday. He has not yet procured counsel.

CONTEMPT CASE DISMISSED.

The Moana Hotel Co., Ltd., was cleared from an imputed contempt of court yesterday. An order to show cause in that regard had been taken out on Friday by plaintiff, Lewers & Cooke, Ltd., in the suit against the hotel corporation in which Mr. Deering, a guest of the hotel, had been summoned as garnishee. The contempt case was based on the non-production of account books, but Judge Robinson discharged the order for lack of service. H. G. Middle-ditch appeared for plaintiff, and C. W. Ashford for defendant.

RIO VICTIM'S ESTATE.

The loss of the P. M. S. S. City of Rio de Janeiro at the Golden Gate, San Francisco, in the year 1901, was a fact taken judicial cognizance of by Judge Robinson yesterday. M. Ohkaha, a Japanese, was seen going aboard the ill-fated steamer, when she left Honolulu for the last time by K. Ono, one of his creditors. He never saw or heard of him again and now in court his petition for letters of administration on the estate of Ohkaha was granted under a bond of \$300. W. T. Rawlins appeared for the petitioner.

CARTER ESTATE TROUBLES.

Yesterday had been set for hearing the petition of Edgar Henriques for the appointment of Henry W. Kinney as guardian of the minor children of the late Mrs. Margaret V. Carter of Makao, Oahu, pending an appeal to the Supreme Court.

WHAT IT WILL DO.

A woman buys a sewing machine for what it will do; not as an article of furniture. A man carries a watch to tell him the time; not as an investment of surplus capital. The same principle when one is ill. We want the medicine or the treatment which will relieve and cure. The friend in need must be a friend indeed, something, or somebody, with a reputation. There should be no guesswork in treating disease. People have the right to know what a medicine is, and what it will do, before they take it. It must have behind it an open record of benefit to others for the same diseases, a series of cures that proves its merit and inspires confidence. It is because it has such a record that **WAMPOLE'S PREPARATION** is bought and used without hesitation or doubt. Its Good Name is the solid basis for the faith the people have in it; and a good name has to be earned by good deeds. It does what you have a right to expect it to do. It is palatable as honey and contains all the nutritive and curative properties of Pure Cod Liver Oil, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. In Scrofula, Anemia, Nervous and General Debility, Influenza and Wasting Complaints, it is to be thoroughly relied upon. Doctor J. L. Carrick says: "I have had remarkable success with it in the treatment of Consumption, Chronic Bronchitis, Catarrh and Scrofulous Affections. It is of special value in nervous prostration and depraved nutrition; it stimulates the appetite and the digestion, promotes assimilation, and enters directly into the circulation with the food. I consider it a marvelous success in medicine." Every dose effective. If you cannot be dissuaded from it, it will be absolutely thorough in the world.

preme Court of Mrs. Jessie K. Kahe from an order dismissing her as executrix of the dead woman's estate. C. W. Ashford made a special appearance for Mrs. Kahe, claiming that summons had not been served upon her. Thereupon Judge Robinson continued the hearing until today.

MRS. HAALELEA'S ESTATE.

The last will and testament of Anna-deria Amoy Haaalelea, deceased, was admitted to probate by Judge Robinson, who appointed Clarissa Amoy Monsarrat and Elizabeth Renjes, as nominated in the will, to be executrices. The executrices forthwith filed their personal bond in the sum of \$13,750, the will directing that they should not be required to furnish any surety or sureties on their bond. Holmes & Stanley represented the petitioners.

VARIOUS PROBATE MATTERS.

Represented by E. A. Douthitt, the petition of L. Schwelzer to admit to probate the will of Samuel Sachs, with himself as executor named therein, was granted by Judge Robinson. In accordance with the request of the testator, a bond was not required.

Judge Robinson granted leave to Virginia Gomes, executrix, to sell real estate of the late Francisco Gomes Capicha for the purpose of paying the estate's debts. Thayer & Hemenway appeared for petitioner.

C. F. Peterson was appointed by Judge Robinson as administrator of the estate of Poipe Kamuo under bond of \$850.

Judge Robinson approved the accounts and granted the discharge of W. O. Smith as administrator of the estate of Ethel P. N. Gay, deceased.

INJUNCTION AND APPEAL.

Judge Gear yesterday signed a decree and permanent injunction against the Mutual Telephone Co., Ltd., its officers, servants and agents, whereby they were "strictly enjoined and commanded to desist from discontinuing, disconnecting or in any wise interfering with the telephone service of Sidney M. Ballou, the plaintiff herein, on any pretext whatever, under penalty of being adjudged in contempt of court."

By its attorneys, Smith & Lewis, the respondent immediately filed an appeal from the decree and injunction to the Supreme Court.

LESLIE IS REMEDILESS

Bankruptcy Proceedings Against Young Nap Dismissed.

Judge S. B. Dole, in the United States District Court, rendered two decisions yesterday.

In the suit of George Leslie, a licensed mate, against the Inter-Island Steam Navigation Co. for \$28,000 damages on account of breach of contract for constant employment and promotion, he dismissed the libel. The law of the case found, as applicable to ordinary contracts for hiring, is as follows:

"The parties may bind themselves by contract, but where they have made no contract for a stipulated time the employee may leave when he wishes and the employer may discharge when he pleases."

J. J. Dunne for libellant; Smith & Lewers for libellee.

ALLEGED BANKRUPT RELEASED.

The other case was the petition of Hoffschlaeger Co. to have Young Nap adjudicated a bankrupt, alleging concealment of goods and removal of property. In dismissing the petition and ordering judgment for the respondent, the court decided that the respondent was a farmer and, according to law, not liable to be put into bankruptcy. Besides, there was nothing in the case to show that the respondent must have known that the property which he was taking away amounted to an actual attempt to hinder, delay and defraud his creditors. Thayer & Hemenway for petitioner; E. M. Watson and C. W. Ashford for respondent.

Young Nap, with his wife, children and effects, was snatched from a steamship just sailing for China at the institution of the proceedings against him.

NATURALIZATION.

John A. Rothwell, England, was made a citizen of the United States by Judge Dole at yesterday's session.

An organ recital will be given at the German Lutheran Church on Thursday, June 16, the main feature to be organ recitals to be rendered by Harold Burton. Among others who will assist are as follows: Mrs. George W. Macfarlane, vocal solo; F. McIntosh, vocal solo; E. M. Mitchell, vocal solo; Mrs. Mary Josephine McIntosh, vocal solo; and John and Miss Burton, piano solo.

PARKER RANCH DISPUTE TAKES A DAY IN COURT

Magoon Argues That Sam. Parker Has Absolute Control of the Property---Carter's Historical Return.

All of the court day before Judge Gear yesterday was occupied with the Parker Ranch contest. This was on an injunction suit entered late Friday by Samuel Parker against Alfred W. Carter, to enjoin and restrain the respondent from interfering with the management of the ranch, and from entering or trespassing upon the premises. The occasion was Carter's refusal to surrender the management of the property to Eben P. Low, who was appointed as manager by Mr. Parker and went to take the place.

As already reported by the Advertiser, Mr. Carter brought suit, as guardian of Annie T. K. Parker, a minor and half-owner of the Parker Ranch, before Judge Edings at Kailua for partition of the property between Samuel Parker and his client, two days in advance of Parker's suit here. Carter's petition was also for an injunction to restrain Parker, through Eben P. Low or anybody else, from interfering with his management pending the determination of the suit. This priority of action on Carter's part raised a question of jurisdiction in Parker's suit, but though coming up in the pleadings it had not been ruled on by Judge Gear when the court rose for the day.

Plaintiff was represented at yesterday's hearing by J. Alfred Magoon and J. Lightfoot, with Fred Wundenberg, trustee of Parker, present. Defendant's counsel were Arthur A. Wilder of Robertson & Wilder, W. A. Kinney of Kinney, McClanahan & Cooper, and S. M. Ballou and P. Anderson of Hatch & Ballou.

Mr. Magoon argued for the petition well into the afternoon. He laid great stress on the contention that Samuel Parker, after the death of John P. Parker the elder, was the sole surviving partner of the partnership owning the ranch and as such, according to the law books, entitled to supreme control. Any heir or heirs had the privilege, on the death of the other partner, to take the proper course for having the partnership affairs settled and receiving his or their portion or portions of the proceeds of the property. This had not been done in the case of the Parker Ranch partnership, therefore the partnership continued but the heir was only entitled to her share of the income along with her right of ownership in the property. Evidence was easy to produce of similar cases where a sole surviving partner carried on the business of the partnership, without any participation by the heirs of the dead partner in the control and management. They simply drew their share of the profits, while the partnership was perpetual until the ordinary procedure was adopted for winding it up.

Mr. Parker's attorney also dwelt on the absurdity of an employee's resisting dismissal by an employer. Warning up he became denunciatory of the tactics employed by the respondent, going so far as to use the adjective "diabolical" in characterizing a portion of the other side's pleadings.

MR. BALLOU REPLIES.

Mr. Ballou followed in reply. He spoke until adjournment, taking up the various points offered by the plaintiff. The speaker ridiculed the claim of an everlasting partnership, asking how a partnership with a dead man could be held inviolable. Through her lawful guardian in minority the heir in this case might, at any time, demand a partition of the estate and a winding-up of the partnership.

CARTER'S RETURN.

Mr. Carter early in the hearing filed his return to the summons, stating the fact of his petition to the Third Circuit Court for partition of the estate. A lengthy affidavit was attached, in which the respondent pointed out the bad state of affairs that would be produced by the granting of the injunction against him. Mr. Parker's nominee as manager, Low, was at that very time obeying the injunction issued by Judge Edings in the partition suit of affiant. He was entirely refraining from interfering with the management of the property. Now, if the affiant, Carter, were similarly enjoined there would be nobody at all in responsible control of the Parker Ranch. From this point Mr. Carter went on as follows with a history of his relation to the Parker Ranch:

CARTER'S POSITION.

That affiant has had sole possession, charge and management of said Parker Ranch with full knowledge, control and cooperation of the plaintiff Samuel Parker for over four years last past.

According to established routine, and that full protection is being afforded to all the property both of the minor Annie T. K. Parker and said Samuel Parker, comprising the said Parker Ranch; and that affiant has no desire, plan or purpose to deviate in the future from the established methods heretofore adopted by him in the care and management of said ranch---affiant, on the contrary, pledging himself that the said ranch shall be handled in the usual and customary way, that nothing will be done that can possibly harm or injure the interests of those concerned in said property; that affiant's plan and purpose has been to continue Parker Ranch as heretofore conducted as long as the same was agreeable to the said Samuel Parker, and up to within ten days ago affiant had no reason to believe but that he was acting in full accord with the wishes and desires of said Samuel Parker in the conduct of said ranch;

That affiant has continually consulted with said Samuel Parker and placed at his disposal every record and detail of ranch work, and consulted said Samuel Parker in the conduct of said ranch when any step was about to be taken which affiant thought said Samuel Parker might desire to be informed of or upon which said Samuel Parker might desire to give advice, but now that said Samuel Parker and Trustee have evidenced their desire to terminate the arrangements under which said ranch has been conducted by affiant as aforesaid nothing is left to affiant but to secure as quickly and peaceably as possible a partition and division, whereby affiant can secure a severance and delivery to himself of the share or interest of said Annie T. K. Parker in said Parker Ranch, affiant firmly believing that it will be disastrous to the interests of said minor to have her affairs left in the control and at the disposition of the said Samuel Parker or any other person under the control of said Samuel Parker;

That affiant believes that said Samuel Parker has been aware of his, affiant's, position in the premises; and affiant's sole purpose in bringing the proceedings for a partition is to secure the segregation of said minor's interest as soon as possible;

That affiant believes it his duty to resist and has been advised to resist the turning over of the control of the property and assets of said minor to the said Samuel Parker or to his agents;

That affiant as in his bill of complaint alleged would not accept the guardianship of the property of said minor, though thereto requested by said Samuel Parker, until said Samuel Parker had specifically pledged himself to affiant and promised that affiant should have the control and management of said Parker Ranch in the interests of said minor, and now that the said Samuel Parker and his Trustee F. Wundenberg have signified their desire to terminate said management and control, affiant believes it equitable, just and right that he should be allowed to continue the management and control of said property until, and only until he can secure a severance of the interests of said minor as aforesaid; and affiant here and now offers to assent to any reasonable partition and division of the property heretofore known as the Parker Ranch that can be arrived at by amicable agreement outside of Court between the parties entitled thereto;

Affiant further states that all of the property known as the Parker Ranch, including the live stock and all of the property named and referred to in the bill of complaint herein is situated on the island of Hawaii and that none of it is on the island of Oahu or within the immediate jurisdiction of this Court;

That affiant has never understood that he was an employee of Samuel Parker and never received orders from said Samuel Parker as his employee nor during the entire term of his management of said ranch has the said Samuel Parker ever claimed or hinted at such relation between affiant and Samuel Parker;

That affiant from the first insisted that the Guardian of Annie T. K. Parker by virtue of such guardianship should have the control of the Parker Ranch, but that affiant would consult and advise with the said Samuel Parker in reference thereto, and that the foregoing understanding has been carefully observed by affiant; and affiant, as a matter of fact can say that during his management of said ranch, no differences have arisen between them, i. e., said affiant and said Samuel Parker, as to the management of said ranch, said Samuel Parker repeatedly endorsing affiant's management of said ranch and affiant's relations and conduct toward him, the said Samuel Parker often telling affiant that people were coming to him with tales against affiant, but that he, the said Samuel Parker, knew there was nothing in these complaints;

That at no time during affiant's management of said ranch has the said Samuel Parker hinted or suggested that the partnership that existed between himself and John P. Parker, the second, had not been wound up and settled for his said Samuel Parker ever suggested that during affiant's management of said ranch he, the said Samuel Parker, had any right or control over said ranch or the management thereof as a sole surviving partner of said partnership; and that the said Samuel Parker had no such suggestion made to him in correspondence with the Trustee and said Samuel Parker;

tached to affiant's bill of complaint as an exhibit thereof;

Affiant denies that he ever received possession of this property from said Samuel Parker, but, as a matter of fact, at the time of affiant's appointment, said property and its management was in exclusive charge and control of F. C. Jones and Godfrey Brown, Trustees of said Samuel Parker and of the interests of said John P. Parker now vested in said minor, and that affiant, by virtue of his guardianship, received possession of said property of said Annie T. K. Parker;

That as shown by the court records, to wit: Probate Records of the Estate of John P. Parker (the second) No. 2770 of the Supreme Court of the Hawaiian Islands, which are hereby referred to, it appears that the said John P. Parker (the second) died November 22, A. D. 1891, and that the said Samuel Parker and one W. F. Allen duly qualified as executors of the will of John P. Parker (the second) who is the same person alleged by the said Samuel Parker in his complaint herein to have been the partner of him, the said Samuel Parker; and that said Probate Records further show that the said Samuel Parker and W. F. Allen wound up and administered the Estate of said John P. Parker (the second), claiming to have collected in all sums of money and assets due and owing said Estate, and to have paid and discharged all liabilities of decedent to third parties, and by reasons of said representations applied for and received their discharge as such executors;

That affiant presents herewith one of the originals of the trust deed made by the said Samuel Parker to his Trustee F. Wundenberg, dated the 17th day of June, 1902, under which said Wundenberg is acting and by virtue of which the title to all of the estate of said Samuel Parker in and to the Parker Ranch is vested in said Wundenberg subject to certain trusts and for the benefit of himself and third parties in said trust deed fully named and set forth;

That affiant, though aware that said Samuel Parker strictly had no right to be consulted in reference to the management of said Parker Ranch since the date of said trust deed, has continued his relations with said Samuel Parker as they existed prior to the making of said trust deed out of courtesy to the said Samuel Parker and with the knowledge and acquiescence of his said Trustees but not in any manner so as to oppose or conflict with the terms and provisions of said trust deed.

PLANTATION GOES CHEAP

Maui Sugar Co. Estate Knocked Down at \$50,000.

At the Judiciary building yesterday noon James F. Morgan, commissioner of court, sold at public auction under foreclosure of mortgage the entire assets of the Maui Sugar Co., Ltd. The mortgage with interest, etc., amounted to \$151,330.14, but the property fell to the initial bid of \$50,000. This was given by F. A. Schaefer in the name of F. A. Schaefer & Co. Mr. Schaefer's partners, H. Focke and W. Lanz, were also in attendance, others present being Geo. R. Ewart and Mr. Watt, the well-known sugar planters, A. A. Wilder of the mortgagee's attorneys, L. M. Velle, Sen. some of the Chinese stockholders in the foreclosed corporation and a few others. Besides the sugar mill, implements, live stock and leaseholds, the sale included sugar on hand and in transit to market valued at \$30,000.

Mr. Schaefer, in answer to a question after the sale, said he was afraid his firm would not continue the operation of the property as a sugar estate. "It would probably be only a losing proposition," he added.

LAST DAY OF ART LEAGUE EXHIBIT

This is the last day of the Kilohana Art League exhibition. The rooms still show the taste displayed by Mrs. Tenney and Miss Parke in decoration, and some half dozen pictures bear the mark "sold" with prospect of others doing so before the exhibition closes this evening. A special feature at this time is the collection of book plates, No. 60, by Mrs. Albertine Randall Wheelan. Connoisseurs have pronounced upon their originality and execution, and they need no higher recommendation than to say that Mrs. Wheelan recently closed an exhibition of her work at the rooms of Vickery, Atkins and Torrey, in San Francisco. Illustrations by her hand may also be found on the pages of St. Nicholas. Mr. Hitchcock has transferred his brush from tropical to arctic scenes. It is to be hoped that at another time he will send us a glimpse of warmth again in the hues of the autumn foliage preceding the snows by which he is here represented. His studio in New York shows many memories of home to his Hawaiian friends there. The presence of Mrs. Albertine Randall Wheelan in the room, which has an attractive and artistic look, has very little on the walls, but a few of her paintings on Matsushita paper are very much admired.

MAUI JURY DISMISSED

Kepoikai Excuses for Rest of Term---No Reason Yet Stated.

There is no jury operating at Maui although the term of court started only last Wednesday. Clerk Coshio of the Second Circuit Court, under Judge A. N. Kepoikai, sent a message yesterday to Attorney General Andrews by wireless telegraphy which read as follows: "By order of court all jurors excused for this term. Give news to papers." Deputy Attorney General E. C. Peters left last week to act as prosecuting officer and J. M. Vivas of Honolulu also attended the term in the interests of clients. The grand jury reported last Thursday afternoon after two days' work, having brought in several true bills. The trial jury when last heard from were working on the case of the Territory of Hawaii vs. W. L. Mossman, W. Bailey and W. Miner for robbery while the petit jury was expected to finish its work this week. Everything was apparently in working order when the as yet unexplained order of the court was issued.

Attorney General Andrews is at a loss to understand why the hitch should have occurred unless it was for lack of money. "Judge Kepoikai told me before he left," said Mr. Andrews, "that he was afraid he would not be able to get through the term with the small amount he had, a matter in which I could duly sympathize as the Attorney General's Department is in the same fix. He added that he would do the best he could and as he had some \$300 I hardly expected he would call a halt as soon as this. But I cannot surmise any other reason. I have heard nothing from Mr. Peters who went there to prosecute."

GARDEN ISLE PEOPLE THANKED FOR KINDNESS

The Sabbath School Association expresses its thanks to the people of Kauai for the generous hospitality extended to its members during the recent convention of the Hawaiian Evangelical Association on the Garden Isle. The following resolution was passed by the Sabbath School Association:

Though humanity is one, yet the manner of manifesting the emotions of the heart is very different in different individuals.

The law of love is the banner we all carry, but the love and bounty shown towards the members of the Sabbath School Association in the hospitality extended to them by the people of Kauai at Manakalanipo, as foreshadowed upon the program of the Hawaiian Evangelical Association, is exceptional; therefore it is

Resolved, That the members of the Sabbath School Association of Hawaii render heartfelt thanks for the many comforts and pleasures both of board and lodging and of picnicking, and the visit to the waterfalls of Waialea. And we pray the richest blessings may rest upon these children of the Heavenly Father, and that, in the Providence of God, we may be permitted to meet again.

May God bless you all.
(Signed) L. K. KAKANI,
Secretary of the Sabbath School Association.

Supt. Holloway on Hawaii.

Superintendent of Public Works C. S. Holloway with Guy Gere left the Kinau at Kawaihae on their official trip and rode overland to Hilo by way of Kona and Kau.

Joe Riley, who announces himself as the heavyweight amateur champion of Boston, says he is anxious to fight any man in the islands, and claims he has the money to back up his challenge. Mr. Riley says that a fist club management is willing to have him fight but first want to see him in a try-out. He will therefore give an exhibition of his ability on Wednesday afternoon at the Heulani Boat House at 2:30 o'clock with a "man of repute" as his opponent.

WILD MAN WOULD ADOPT GIRL BABY

NEW YORK, June 1.—Unhappy is Daniel Bidwell of Hilo, Hawaii, a man of education and refinement. He inserted an advertisement in a local paper as follows:

"One hundred dollars will be paid to any man who will tell me where there is a healthy and attractive girl two or three years old that I can adopt. This child must have refined features, with no indication of foreign parentage. Address Mr. Bidwell, room 58, Comopolitan Hotel, or call any morning between 7 and 9 o'clock."

Bidwell said tonight that he regretted the adventure. He admitted he wanted a girl baby, so did his wife. Since the publication of the advertisement there has been an extra clerk at the hotel to assort the mail. Men with furtive eyes have wandered about the corridor before approaching the clerk with a whisper. Bidwell has taken his mail quietly to his room. Still he cannot escape the persons who call with a view to telling him where he can get an infant such as he desires.

"I did see a baby girl this afternoon that I liked very much, and I am going to see her again tomorrow. She meets the requirements as far as I can tell," said Bidwell.

Bidwell fears the newspaper reports of his advertisement will reach his friends in Hawaii.

LAHAINALUNA SCHOOL HOLDS COMMENCEMENT

MAUI, June 11.—The commencement of Lahainaluna School took place last Wednesday morning, June 8. A large number of visitors were present. The program was as follows: Chorus by the School.

"Louisiana Exposition," Mandolin Club; "A Heroine of Lahaina," Mina Brown; Chorus—"Hail to Our Beautiful Queen," School; Essay—"Lahainaluna," S. L. White; "Hunting Chorus," School; Address, Judge Kahalelo; "Creole Belles," Mandolin Club; Chorus—"Hold Your Head Up Like a Man," School; Address, Inspector Charles E. King; Chorus—"Song That We Never Forget," School; "Hiawatha," Mandolin Club; Presentation of Diplomas, C. A. MacDonald; Hawaii Pono.

The exercises in which the students took part were quite interesting and highly creditable. Judge Kahalelo made an eloquent address in Hawaiian, which was interpreted by Senator White. In the course of well chosen remarks Principal MacDonald presented Samuel White with the diploma of the school, as he has completed the course of study with distinction.

The field and track athletics in the afternoon were a brilliant success; and a bountiful luau was subsequently enjoyed by the many visitors on the hill. The boys have had little practice in athletics, but made remarkably good records.

Smart Trip From Islands.

The brig Geneva, which left Mahukona twelve days ago for this port, was sighted off the Farallones at 3:40 yesterday afternoon. If she does not get into port for several days she will still have made the best passage recorded for some time. The barkentine S. G. Wilder, which arrived yesterday from Honolulu, was twenty-one days coming from the island port.—Call, June 3.

Honolulu Packets Arrive.

The barkentine Coronado and the bark Olympic, loaded with sugar from Hawaiian ports, arrived yesterday. The Coronado, Captain Potter, was twenty-three days coming up from Honolulu. She brought a few passengers and 22,495 bags of sugar. The Olympic, nineteen days from Kaunapali, brought 38,900 bags of sugar.—Call, June 4.

It is the best present you can take home is a bottle of
Ayer's Cherry Pectoral

It quiets the cough, makes breathing easy, and heals the lungs. And it cures, even advanced cases. Make no mistake. Be sure and get Ayer's Cherry Pectoral, the standard cough remedy of the world. Sold for 50 years. Beware of imitations.

In large and small bottles.
Ayer's Cherry Pectoral. Made by Dr. J. C. Ayer & Co., Lowell, Mass., U.S.A.
BOTTLED BY DRUG CO., AGENTS.

THE LATE SIR H. M. STANLEY, AND INCIDENTS OF HIS CAREER.

HILO'S "CHEERFUL LIAR" ON REAL ESTATE DEALS

The "Cheerful Liar" who has resumed his interesting chats in the Hilo Herald after a lapse caused by indisposition, has the following remarks to offer on the visit of Superintendent Holloway to the big island and the question of the cutting of school teachers' salaries:

"When Mr. Holloway comes up here officially he will learn a thing or two that will surprise him. As a visitor a few years ago he was not particularly interested in the place and did not look after its needs. With a few thousand trying to break out of the loan fund the conditions are changed and as he is now a government official he will see where it will do the most good."

"I am always glad to see the head of the public works department come up here," said the Cheerful Liar, "because something good always follows. It has not always come to Hilo because there was seldom anything left when the official got back to Honolulu. The good I refer to went mainly to the people who had land here that was wanted for street widening. There are instances where people of Honolulu got some choice pieces of Hilo real estate in exchange for bum land that had been used down there in street widening. I think Carter has put a stop to that sort of thing and there will be little if any of it done in the future. Those deals smelled high unto heaven."

"There has been talk about the teachers leaving on account of the cut in their salaries," said the Cheerful Liar, "though when the time comes they may back out. As they are under contract for a certain period and at a certain salary they feel that the government has no right to make reductions in the middle of the game. Some of the salaries should not have been reduced but there are others that would bear it all right and still be much higher than is paid anywhere in the United States for the same service. As I remember it the hours were longer in the public schools when I was a boy than they are now in Hawaii and there was more work to do. Of course methods are changing all the time and I presume the schools are not an exception. Professor Scott's idea that the salaries should be kept up by private subscription is, in my opinion, a mistake. It would be a species of charity that the teachers would resent. In another year the trouble will be straightened out and the salaries will be restored to their original figures even if the governor has to sacrifice the band."

CHOLERA INFANTUM.—This has long been regarded as one of the most dangerous and fatal diseases to which infants are subject. It can be cured, however, when properly treated. All that is necessary is to give Chamberlain's Colic, Cholera and Diarrhoea Remedy and castor oil as directed, with each bottle, and a cure is certain. Since this remedy has come into such general use, there are very few deaths from cholera infantum, and none whatever when it is given. For sale by all Dealers and Druggists. Benson, Smith & Co., Ltd., Agents for Hawaii.

Six Prize Stories

FROM THE LITERARY BRANCH OF

The KILOHANA ART LEAGUE

A neat and interesting souvenir of Hawaii, neatly gotten up and handsomely bound.

The stories are ALL HAWAIIAN, having a distinct Island flavor and apart from its value as a souvenir the book is an interesting one.

NEGROES IN NEW YORK SHOW AUDACIOUS FRONT

NEW YORK, June 4.—A charge by police reserves has been necessary to drive away thousands of persons blocking Central Park west in front of the home of Hannah Elias, the octroon, who is charged by John R. Platt, an aged millionaire manufacturer, with having secured from him by blackmail nearly \$700,000 in cash and real estate. Mounted police headed the charge and they were compelled to use extreme measures in order to drive off the crowd which was composed largely of negroes, friendly to the woman.

Mrs. Elias has been besieged in her splendid residence by deputies seeking to serve a warrant since suit was begun by Platt. As it is a civil case, the officers are not empowered to break in the doors, so they have waited about patiently expecting the woman to attempt an escape. Meantime scores of private detectives, employed by numerous persons interested in the case, have stationed themselves near by, shadowing all who enter or leave the house, and serve as an added attraction to the curious.

Finally, the crowd became so dense that Central Park West was packed a block in both directions. From the sullen attitude of the negroes it is surmised that they, or at least some of the leaders, had an idea of protecting Mrs. Elias should she endeavor to leave the house. When the police reserves were called the negroes became extremely sullen and were driven away with much difficulty, jeering and insulting the white men as they went. No one was injured.

MARRIED IN ROME.

ROME, June 4.—Miss Nellie Crum, of San Francisco, was married today to Lieutenant Ralph I. Pope, of the United States battleship Wisconsin.

WOUNDS HEAL QUICKLY.

ST. PETERSBURG, June 4.—The War Office has received no fresh news from Liaotung. Since the receipt of General Stoessel's report, the General Staff is convinced that the Japanese losses in the fighting about Kin Chou were greater than officially admitted. It is known that only the very seriously wounded were included in that category. There are indications that both of the commanders are pursuing this plan, as the wounds made by the small calibre, high velocity bullets used in modern warfare, unless they reach a vital spot, heal quickly and in a few weeks most of the wounded men are again ready for active service.

OF HISTORIC DESCENT.

NEW YORK, June 4.—Mrs. Polk, mother of the Baroness de Charette, is dead at Cannes, says a Herald dispatch from Paris. She was a descendant of William Penn, founder of Pennsylvania, and A. Polk, who fought in the Southern army in the war of secession. After peace was made he retired to Switzerland, where he died in 1867.

STEAMSHIP COMPANY HIT HARD.

NEW YORK, June 4.—The Russian steamers owned by the Chinese Eastern Railroad Company, have been affected more adversely by the war than any other fleet, says a London dispatch to the Times, on the subject of vessel insurance. There were 17 vessels before hostilities began. Ten steamers have been lost and possibly more.

The Russians who abandoned Dalny are reported to have blown up the Zeeia, the Bureia and the Nagadan, and the Nonni was destroyed by a mine a few days ago. The last named was of 2,464 tons, while the others were under 1,000 tons each.

News has been received from time to time of the capture by the Japanese of the Amur, the Argun, the Manchuria, the Mukden, the Noyik and the Schilka. Three of these vessels are now in the Japanese transport service.

THE NEW FRENCH REMEDY.**THERAPION**

This successful remedy, based on the latest scientific discoveries, is a powerful and reliable agent for the treatment of all diseases of the blood, skin, and mucous membranes.

It is particularly effective in the treatment of eczema, psoriasis, and other skin diseases, and is also a powerful agent for the treatment of all diseases of the blood, such as anemia, leucemia, and chlorosis.

THERAPION No. 1 is a powerful agent for the treatment of all diseases of the blood, and is also a powerful agent for the treatment of all diseases of the skin, such as eczema, psoriasis, and other skin diseases.

THERAPION No. 2 is a powerful agent for the treatment of all diseases of the blood, and is also a powerful agent for the treatment of all diseases of the skin, such as eczema, psoriasis, and other skin diseases.

THERAPION No. 3 is a powerful agent for the treatment of all diseases of the blood, and is also a powerful agent for the treatment of all diseases of the skin, such as eczema, psoriasis, and other skin diseases.

THERAPION No. 4 is a powerful agent for the treatment of all diseases of the blood, and is also a powerful agent for the treatment of all diseases of the skin, such as eczema, psoriasis, and other skin diseases.

THERAPION No. 5 is a powerful agent for the treatment of all diseases of the blood, and is also a powerful agent for the treatment of all diseases of the skin, such as eczema, psoriasis, and other skin diseases.

THERAPION No. 6 is a powerful agent for the treatment of all diseases of the blood, and is also a powerful agent for the treatment of all diseases of the skin, such as eczema, psoriasis, and other skin diseases.

THERAPION No. 7 is a powerful agent for the treatment of all diseases of the blood, and is also a powerful agent for the treatment of all diseases of the skin, such as eczema, psoriasis, and other skin diseases.

THERAPION No. 8 is a powerful agent for the treatment of all diseases of the blood, and is also a powerful agent for the treatment of all diseases of the skin, such as eczema, psoriasis, and other skin diseases.

THERAPION No. 9 is a powerful agent for the treatment of all diseases of the blood, and is also a powerful agent for the treatment of all diseases of the skin, such as eczema, psoriasis, and other skin diseases.

THERAPION No. 10 is a powerful agent for the treatment of all diseases of the blood, and is also a powerful agent for the treatment of all diseases of the skin, such as eczema, psoriasis, and other skin diseases.

INCREASE OF THE INSULAR TRADE

The N. Y. Sun has the following: To the editor of the Sun: There is no denying the fact that our trade with our insular and non-contiguous territories has increased very largely since the acquisition of those territories and is still increasing. The Bureau of Statistics of the Department of Commerce and Labor has completed its record of this trade to March 31, so that the following interesting comparison can be made of the nine months of this fiscal year with the same period of 1898 fiscal year:

	1898.	1904.
Shipped to Hawaii	\$ 4,299,000	\$ 9,072,680
Porto Rico	1,371,125	8,360,883
Philippines	75,728	3,651,940
Alaska	4,591,463
Received from Hawaii	10,954,689	14,613,450
Philippines	2,740,034	9,863,183
Porto Rico	785,124	6,531,574
Alaska, merchandise	9,966,190
Alaska, gold—our own	5,806,501
Guam and Tutuila	123,870

The 1904 nine-months shipment to and receipts from, of merchandise only, aggregate \$66,775,433 (an increase over 1903 nine months of about \$2,000,000), which with the \$5,806,501 of American gold from Alaska form a total trade with these territories for 1904 nine months of \$72,581,934.

This result for the first three-quarters of this fiscal year assures us of a total trade of fully \$100,000,000 for the full year.

The chief value to the mainland of this trade is the exchange of merchandise. That means work for the factories of the mainland. In that direction the 1904 nine months shipments to and from divide as follows:

Merchandise shipments from.....\$41,098,467

Merchandise shipments to.....25,676,966

Total merchandise shipments.....\$66,775,433

When our books are closed for this fiscal year the total of merchandise shipments will be \$90,000,000 or more. Compare that with 1898, and bear in mind that we are only beginners in colonial development.

WALTER J. BALLARD.

Schenectady, May 27.

THE EFFICACY OF Chamberlain's Pain Balm

in the relief of rheumatism is being demonstrated daily. If troubled with this painful disease procure a bottle at once. One application relieves the pain. Sold by all dealers and druggists. Benson, Smith & Co., Ltd., agents for Hawaii.

The Chun Chuses.

The Chun-chuses, so frequently mentioned in despatches from the Far East are an organized band of Chinese outlaws, famed for their audacity, who have long been the terror of Manchuria. The Chun-chuses were deserters from Chinese mining camps, where they were compelled to work for poor pay and were half starved. They were organized by banished Mandarins who had taken refuge with them. It was ostensibly because of the depredations of these brigands that Russia occupied Manchuria in 1900.—Exchange.

Evans on Battleships.

As to the value of battleships Rear Admiral Evans, U. S. N., is quoted as follows: "This agitation against battleships is foolish. It can be best answered in the Yankee fashion by asking this question: 'How long would the Russian fleet stay in Port Arthur if there were no Japanese battleships outside?' There is nothing that can replace the big battleships. I don't believe the Port Arthur fleet is crippled as badly as reported, but the Japanese will be masters of the sea for a long time."—Army and Navy Journal.

READ ALL OF THIS

You Never Know the Moment When This Information May Prove of Infinite Value.

(From the Sydney, N. S. W., Herald.)

It is worth considerable to any citizen of Honolulu to know the value and use of a medicine, for if there is no occasion to employ it, in the meantime, frail humanity is subjected to so many influences and unforeseen contingencies that the wisest are totally unable to gauge the future. Know then that Doan's Ointment will cure any case of hemorrhoids, commonly known as piles, or any disease of the cuticle or skin, generally termed eczema. One application convinces—a continuation cures. Read this proof:

Mr. William Gilliver, of the well-known firm of Gilliver & Curtis, railway and general contractors, and whose private address is "Avoca," Bankstown, a suburb of Sydney, N. S. W., has written the following unsolicited letter, which we herewith publish in full:

Messrs. Foster, McClellan Co., 78 Pitt St., Sydney, N. S. W., February 19, 1909.

Dear Sirs:—In justice to you and suffering humanity I write to say that I suffered from itching piles for 22 years. I tried many doctors and pretty well all kinds of patent medicines, but got relief for a short time only. Hearing your Ointment advertised, I bought a pot and did not use more than one-half of it, not six months ago, and I am perfectly cured. You may see this in my own hand.

Yours faithfully,

WILLIAM GILLIVER.

Doan's Ointment is sold by all druggists and is guaranteed to cure all cases of hemorrhoids, eczema, and other skin diseases.

COMMERCIAL NEWS

In a letter to the Advertiser, A. Sumter probably reflects the opinions of a great many people on the present depressed condition of sugar stocks, which he characterizes as "abnormal" and looking "like an unscrupulous attempt to squeeze out small investors, some of whom are women and others mechanics and small farmers." Mr. Sumter gives the following examples of what appears to him an anomalous state of affairs:

"Kihei plantation has a crop of about 5500 tons of sugar, which at \$3.75 per hundred pounds, which is less than the present quotations, would sell for \$412,500. Four dollars per share is offered for the stock, which, if the plantation were sold for that price, would be \$200,000 for the whole plantation. Half of the acreage on this plantation—land that could not be used on account of altitude and lack of water to irrigate—sold recently for \$500,000. The remaining half, which includes all the improvements of a first-class plantation, excepting the mill alone, is certainly worth at least twice as much as the portion sold, or \$1,000,000, which would be \$200,000 a share."

"Olaa plantation will sell its present crop for approximately \$1,800,000. At the price offered for the stock, \$3.00 per share, the whole plantation would sell for \$750,000, much less than half the value of the present crop of sugar."

"McBryde plantation's present crop of sugar will sell for perhaps \$1,000,000, yet if the place were sold at the prices now being offered for the stock, the plantation would sell for only \$437,500."

Mr. Sumter concludes with a rather plain intimation that there are persons with power to prevent the present conditions who, themselves, are "continguing to depress the value of sugar stocks."

The complaint thus voiced takes no account of the conditions that have prevailed in the sugar industry for the past three or four years. Neither does it consider the fact that the three examples given are all of new sugar enterprises, whose initial difficulties have been greatly increased by the low price of sugar that has obtained since they began producing. The cost of their development and machinery installation bears heavily on their finances, all the more that expectations of returns from crops have been defeated by the low state of the world's sugar market. Added to these depressing conditions has been the alarm, happily now found to have less cause than at first thought, of a new cane pest.

It is not the small investor, particularly the one who bought sugar stocks on speculation in the boom, who apart from actually unfavorable conditions, is mainly responsible for the present low prices of stocks? In many cases the small investor put not only his surplus cash into sugar stocks, but staked practically all his living resources in the game. He bought either to sell on a rising market or with the fond hope that the shares would soon yield him dividends. There were so many like him that the stock market fell instead of rose, while the expenses of starting new plantations and the low price of sugar each had its part in disappointing expectations of purely investment purposes. Buyers of assessable stocks who had deficient reserves for meeting the calls had to let them go by default to the auction block. The banks became loaded with shares as collateral until their own safety and that of the business community dictated a shutting down on that line of accommodation.

Now, as was stated last week, there is a renewed demand for plantation stocks from large capitalists. It is for considerable blocks, however, and not the little parcels that are available through the distress of the small investor. At the same time the demand will tend to make it safe for brokers to assemble small lots at asked rates for reselling in the blocks required. Therefore an influence is already operating to advance prices and being a natural influence it is a healthy one. The fact that the difficulty increases day by day is a cheering sign. Bankers and brokers are as much the creatures of circumstances as the small investors of whom Mr. Sumter is a spokesman. Their interest cannot lie in depressing the situation but entirely the contrary. One broker seen by the writer of this article before he had read Mr. Sumter's communication expressed himself substantially in the following terms, and his views bear the stamp of ingenious sympathy with the feelings of the general public:

"People are anxious enough to get stock at the old figures. There is a good, strong underground feeling in the stock market. The improving conditions, with prospects of good crops, cause people to hold on who for some time past have been ready to give up their holdings. It is therefore more difficult to bring buyer and seller together. We will undoubtedly feel the benefit of a good crop with higher prices. People having collateral that will not bring the face value of the notes are inclined to wait for the expected improvement rather than sacrifice the securities at the old prices."

TRANSACTIONS.

The large deal in Kahuku reported here a week ago as pending was closed by Halstead & Co. on Thursday, the price being \$18. Following the announcement of that transaction at the board on Friday, Halstead & Co., the same afternoon, completed a deal of 1000 shares of Olaa at \$3. There have been sales of Paia and Haiku 6 p. c. bonds at par the past week. It was stated last week that further Coast orders for Waialua at \$40, the price of an order just satisfied, could not be filed. The asking figure is now \$42½. Kahuku has shaded up under the demand and there is little doubt that several other stocks will soon be responding to the cheering influences now operating.

MISCELLANEOUS.

Old Hawaiian Government 5 per cent. bonds to the amount of \$10,000, in the hands of a single holder, will be redeemed at the end of the month. The money comes from public land sales and its application to this purpose is obligatory by statute, a fact that disposes of the objection heard that there is more need of the money for necessary public services—this apart from the importance of punctuality in meeting the Territory's pledged obligations. Loan fund expenditures for public improvements are now being outlaid upon the four principal islands, which cannot fail to improve times for the people in general. Real estate matters are quiet. Quite a little building of moderate-priced dwellings in both town and suburbs is to be noted. The foreclosure announced of the Island Realty Co., is an event indicative to some extent of an overdoing of the suburban development business which was contemporaneous with the general boom incident to annexation.

Historical HonoluluOR A CENTURY OF
HAWAIIAN EVOLUTION.

This valuable record of the most important events in the History of Honolulu for the past hundred years was compiled and published at great expense in 1899.

Its historical and descriptive articles are by the very best recognized authorities on Island matters and are handed from absolutely impartial standpoints.

It is finely illustrated and contains portraits and biographical sketches of the principal business and professional men of the Islands.

This is a publication that no student of Hawaiian History can afford to be without. A limited number of copies still for sale by The Hawaiian Gazette Co., Ltd.

CUTICURA**REMEDIES****THE SET**

Consisting of CUTICURA SOAP, to cleanse the skin, CUTICURA Ointment, to heal the skin, and CUTICURA RESOLVENT, to cool the blood, is often sufficient to cure the most torturing, disfiguring skin, scalp, and blood humours, rashes, itchings, and irritations, with loss of hair, when the best physicians, and all other remedies fail.

Millions of Women Use Cuticura Soap

Exclusively for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, eczema, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, in the form of baths for annoying irritations, inflammations, and chafings, or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and for many sanative antiseptic purposes which readily suggest themselves to women, and especially mothers, and for all the purposes of the toilet, bath, and nursery. No amount of persuasion can induce those who have once used it to use any other, especially for preserving and purifying the skin, scalp, and hair of infants and children. CUTICURA SOAP combines delicate emollient properties derived from CUTICURA, the great skin cure, with the purest of cleansing ingredients and the most refreshing of flower odours. No other medicated soap ever compounded is to be compared with it for preserving, purifying, and beautifying the skin, scalp, hair, and hands. No other foreign or domestic toilet soap, however expensive, is to be compared with it for all the purposes of the toilet, bath and nursery. Thus it combines in ONE SOAP at ONE PRICE, the best skin and complexion soap, the best toilet and best baby soap in the world. Sold throughout the world. "All about the Skin," post free of Aust.
